

## 2025/2026 Solutions Scholars Application Questions

Thank you for applying to the 2025-2026 Solutions Scholars Program. You can find program details here:

<https://climatesolutions.ubc.ca/solutions-scholars-program/apply-program>

Please alert your supervisor to your application. In lieu of providing a reference letter, your supervisor will be sent an automated email upon submission of this Qualtrics survey to confirm their support for your application. If you are in a course-based Masters and are uncertain of who should be included here, you can email [climate.collective@ubc.ca](mailto:climate.collective@ubc.ca) to confirm.

To help you prepare for your application, you may wish to download a copy of these questions from <https://climatesolutions.ubc.ca/solutions-scholars-program/apply-program> then cut and paste responses into this Qualtrics survey once complete.

In addition, you will be asked to upload your CV:

- Maximum four pages in length
- Academic style, list relevant professional experiences, skills, coursework, and publication
- File must be uploaded as a PDF
- File must be named LastName\_FirstName\_SolutionsCV.pdf

The application form will begin on the next page of this survey.

The deadline for the application is June 10, 2025 at 11:59pm.

++++

## 2025/2026 Solutions Scholars Application Questions

Why are you interested in the Solutions Scholar Program? (max 1250 characters)

What research competencies do you bring to the Solutions Scholars Program, in particular related to climate solutions oriented research? (max 1250 characters) *Note: you will have the opportunity to speak to the competencies applicable to specific projects on the next page*

Describe your experience with interdisciplinary and / or collaborative research. (max 1250 characters)

What area(s) of climate change solutions research excites you the most right now? (max 800 characters)

Please rank your project preferences from first choice to as many as you would like by dragging the projects on the left into the first box on the right. Please be sure to place these in order of preference as we may utilize this ranking to help determine project best fit.

If there are any projects that you would not like to be considered for, please place them in the bottom box.

You can review the projects here: <https://climatesolutions.ubc.ca/solutions-scholars-program/apply-program>

- Enhancing Wildfire Preparedness Through a Multi-Platform Digital Tool
- Laying the foundations for the establishment of a Climate Engagement Centre (CEC) in a BC Interior town
- Developing a Climate Justice Education Cohort in Teacher Education: Needs Assessment, Resource Building, and Mapping Analysis
- End-to-End GHG Emissions Tracking of Online Services
- Addressing Polarization: Arts-led Social Infrastructures for Anticolonial Climate Justice
- Communicating Climate Extreme Impacts to Mobilize Action: Does Framing Matter?

Are there any additional details you would like to share regarding your project preferences? (Maximum of 400 characters) On the next pages, you will have an opportunity to describe how your research competencies, skills, and / or experiences relate to each project for which you would like to be considered.
